ADDITIONAL SUGGESTIONS

Do a web search for your church or event.

Use **generic terms** like, Spiritual, Spiritualist, Psychic, Readings, Healing, etc.

For example, search for: *Spiritualist Church Grand Rapids*, or *Metaphysical Church South Bend*, or *Spiritual Church Jackson* or *Non-Denominational Church Highland* then review the results.

Don't bother looking past the first page of results, but do look for web sites that might offer a free listing.

Bookmark or Favorite these pages so you can find them again.

Use these listings for multiple ways to advertise for those who are searching for what you offer.

Remember that a **generic category may produce more results** than a narrow *Spiritualist* listing since those searching are likely to not understand the meaning of Spiritualism. They are more likely to understand more foundational descriptions such as Spiritual Growth, Universal God, Spiritual Healing, etc.

We want them to ***Come For The Experience.***

To place your web page address in a listing, open a second browser window, go to your page on the ISA web site, highlight the full address in the address bar, R click and select Copy, go to the blank spot for your web address on the page you are making your new listing, R click in that blank box and select Paste

(if Paste is not available, be sure your cursor is blinking in the blank box then use the keyboard CTRL & V)

After you list on various sites **followup to see the results** of new searches every 30 days or so.
