

Mahala D. Bacon, Th.D.
Chicago's International
Spiritual Intuitive, Teacher and Medium
A Leader in the field of Spiritual Energetics
 (A branch of science that deals primarily with
 Spiritual Energy and its phases of transformation.)

A SPIRITUAL TEACHER AMONG US

CEO - United Spiritual Council of Nations and Senior Pastor/Counselor at Evangelical Spiritual Church.

I am a graduate of Williams College, and known as a Master Intuitive; an Adept in mystic tradition. As the Founder of the United Spiritual Council of Nations, I believe that all people must be honored for the innate wisdom that resides within them. My focus is to help each person begin the journey inward to release that wisdom so life will be more meaningful. I am known for my teachings, speaking engagements, seminars, workshops and intuitive readings. I am recognized internationally as an Adviser, Counselor, Medium, and Educator. I am a consultant here and abroad for private and public business firms as well as a personal specialist.

As a teacher and a counselor I am involved in mystical studies and teach the scientific and subjective theories that involve these studies. My field of expertise is in Sacred Sciences and Spiritual Energetics. The use of basic astrological concepts can be part of my counseling consultation upon request. My consultations are strictly by appointments, and I offer public classes that can be Skyped.

I have established a structure which will provide additional education to the spiritually minded individual. This is accomplished by educating the mind and by going into the heart (the innate life force) of our being.

My personalize mediumship studies has been with the well-known Spiritualist Master, the late Reverend Harry Hilborn and I am continuing his work in Cicero Illinois. I have had various spiritual teachers that also have enabled me to utilize the teachings of Eastern Mysticism. My goal is to blend those teachings with the traditional Spiritual Teachings to show us a way of living life effectively. Applying a blend of these concepts into today's living helps us stay centered and focused in our modern world.

The longest journey ever traveled is from the head to the heart. The process of aligning our thoughts and emotions can take a lifetime. This is an internal process. I teach the spiritual concepts to enhance living. As each of us learn and come to realize, that knowing our self is where power lies. Through education we expand awareness. By uniting the thread that connects our innate wisdom with physical intelligence, we find our wholeness and realize we are complete.

As we align ourselves with the power of the universe we learn that the universe speaks to our spirit.

“Emotions are Simply the Voice of the Spirit.”

My mediumship work includes private and group sessions, séances, and public works. I am the medium for the paranormal group “SNAPIT” (Super Natural and Paranormal Investigation Team,) based in Chicago. I am member and the Vice-President for the Independent Spiritualist Association of America (“ISA”). I serve upon request the National Council for Geocosmic Research organization. I am a Psychological Astrologer utilizing intuitive insights for personal astrological interpretation of charts as well as a medium, counselor, and Spiritual consultant.
